

# PASSION

## Key Ingredients

### Horny Goat Weed

Studies indicate that horny goat weed may work by increasing nitric oxide levels, which relaxes smooth muscle and lets more blood flow to the sex organs. Horny goat weed also appears to act by inhibiting the PDE-5 enzyme.

### Yohimbe

Scientists have studied this herb and found that the yohimbe releases norepinephrine, a hormone that stimulates the sexual organs and increases blood flow in the genitals.

### Muira Puama

Muira puama is used mainly as an herbal remedy for erectile dysfunction and sexual dysfunction in women. Preliminary animal studies suggest that muira puama is also a mild stimulant.

### Catuaba Bark

Catuaba bark acts as a natural aphrodisiac. Although the herb is primarily used to improve erection in men, catuaba contains libido-enhancing elements for both men and women. Specifically, it helps the genitals function more effectively.
